Dear participants and all those interested,

As you know, the quality assurance of laboratory tests in Germany is bound by laws and regulations, which are set out in the Guideline of the German Medical Association, i.e. the RiliBÄK. The RiliBÄK (J Lab Med 2015; 39(1): 26–69) attracts worldwide attention on account of the fact, amongst other things, that it stipulates the reference method concept.

As a ring trial organisation appointed by the German Medical Association, the Reference Institute for Bioanalytics (RfB) is accordingly obliged to use reference values as target values for a number of analytes when assessing your results. Given that the old rooms of RfB's Calibration Laboratory 1 would no longer have met the current requirements in the foreseeable future, it moved to the Biocampus site in Cologne in May 2017. Under optimum laboratory conditions, SI-traceable target values continue to be provided for ring trial control materials. At the same time, the RfB can now pursue its goal, i.e. facilitating the reference method concept with new developments, with greater intensity.

In addition to analytical methods, pre-analytical and post-analytical processes are coming more and more to the fore in relation to advancements in laboratory medicine. Within the framework of our constantly evolving website, we therefore wish to make special mention of the newly set-up haemolysis database, which now contains approx. 2.5 million records. Sound but anonymous comparisons can thus be made between clinic haemolysis rates, both on an individual basis and cross-clinic basis.

The current innovations for our 2018 range are listed on the following page. As before, this range will offer ring trials for all of the parameters required as per the RiliBÄK, and much more. We will keep you up-to-date on all further major changes that occur throughout the year on our website www.rfb.bio under the heading "News".

We welcome any suggestions you may have in relation to the above. These can be e-mailed to info@dgkl-rfb.de.

We look forward to a continuing good relationship!

Best regards
On behalf of the RfB team

Dr. Wolf-Jochen Geilenkeuser

Dr. Anja Kessler

Advices and explanations concerning the processes for registration and ordering are described on page 56.

Titles of individual chapters

- Quantitative determinations
- Qualitative determinations
- Direct detection of pathogens
- Ejaculate investigation
- Molecular- and cytogenetic investigations

In 2018, we will offer the following new analytes.

B1

AK set 3 Piperacillin.....page 7

TM Chromogranin A.....page 22

ZY Interleukin-1 βpage 24

B2

KU Microalbumin ST.....page 16

B5

ctDNA EGFR T790M (rs121434569).....page 46

New orders

When ordering new surveys with sets please notice the correct entering of the sets desired.

Fees

Please note that the prices given in this program are net prices.

Open to all interested people, you can find there:

- Informations about our current survey program,
- Evaluations of our surveys (target values, statistics, youdenplots, comments on the evaluation etc.),
- Informations around the surveys and the Reference Institute and,
- Our hemolysis database

Registered online users have (after login) more possibilities to handle the whole participation process:

- Online ordering / cancellation,
- Online data entry,
- PDF retrieval of:
 - Protocol of the input of results,
 - Certificates / evaluations,
 - Annual summary in terms of,
 - orders,
 - certificates,
 - correctness of findings.
- E-Mail notifications for evaluated surveys with direct links to individual evaluations.
- Reminder E-Mails for close survey deadlines.
- Convenient management of multiple participation numbers by “fast user switching” with reduced login effort.
- Shipment options with reduced paper consumption.
- Summary over finished surveys per year with:
 - passed / not rated / not passed analytes,
 - download of complete evaluation / certificates,
 - comment function.

▶ **Analyte**

glucose

➤ **Information**

The survey „Glucose“ is offered to laboratories which determine glucose only. If further clinical chemistry analytes are to be determined, participation in a „Clinical chemical analytes in serum“ survey is suggested (KS or TR). This survey is especially recommended for laboratories and practices using glucose measuring instruments, which operate on the basis of pre-portioned reagents (Unit-use) (e. g. Accucheck, Accutrend, Ascensia Elite, HemoCue etc.).

Please note, that you can order only all the **two** resp. **four** surveys of the year together!
An order of a single survey (one/two times a year) is not possible in this case.

	Fee
Result submission via internet/report internet, annual subscription fee	87,50 €
Result submission via internet/report internet+post, annual subscription fee	137,50 €

The following prices are valid in each case for all four surveys:

Thrombophilia module I	355,00 €
Thrombophilia module II	137,50 €
Lupus Anticoagulant / Antiphospholipid Antibodies	137,50 €
Von Willebrand Faktor module (antigen, activity, collagen binding, multimers, Factor VIII)	125,50 €
ADAMTS-13 - I (activity and antigen)	162,50 €
Factor XIII (activity and antigen)	125,50 €
Fibrinolysis parameters I (Plasminogen, Antiplasmin)	125,50 €
Fibrinolysis parameters II (t-PA, PAI-1)	125,50 €
Unfractionated Heparin Monitoring (anti-Xa)	116,50 €
Low-Molecular Weight Heparin Monitoring (anti-Xa)	116,50 €

The following prices are valid in each case for all two surveys:

Faktor VIII Inhibitor	142,50 €
Thrombin Generation Test	135,00 €
ADAMTS-13 - II (inhibitor)	85,00 €
Faktor IX Inhibitor	142,50 €

The following prices are valid in each case for one survey

HIT - Immunological assays	85,00 €
----------------------------	---------

▶ Sample material

plasma or serum, human, lyophilized, ca. 0,5 - 1 ml (1 or 2 sample(s) each)

▶ Analytes 4 per year: TH1/18, TH2/18, TH3/18, TH4/18

Thrombophilia module I

Includes an annual report on the long-term evaluation of test results.

Antithrombin (activity and antigen)	Protein S activity
Protein C (activity [chromogenic and clotting] and antigen)	Protein S antigen (free and total)

Thrombophilia module II (APC Resistance)

Lupus Anticoagulant / Antiphospholipide Antibodies

Von Willebrand Faktor module (antigen, activity, collagen binding, multimers, Factor VIII)

ADAMTS-13 - I (activity and antigen)

Factor XIII (activity and antigen)

Fibrinolysis parameters I (Plasminogen, Antiplasmin)

Fibrinolysis parameters II (t-PA, PAI-1)

Unfractionated Heparin Monitoring (anti-Xa)

Low-Molecular Weight heparin Monitoring (anti-Xa)

▶ Analytes 2 per year:

Faktor VIII Inhibitor (TH2/18 + TH4/18)

Thrombin Generation Test (TH2/18 + TH4/18)

ADAMTS-13 - II (antibodies) (TH2/18 + TH4/18)

Faktor IX Inhibitor (TH1/18 + TH3/18)

▶ Analytes 1 per year:

HIT - I Immunological assays (TH3/18)

Information

In cooperation with the Dutch organization ECAT the Reference Institute for Bioanalytics provides special surveys for thrombophilia screening.

The preparation of the survey material, what is in most cases native patient material, the mailing of samples and the evaluation is done by our colleagues from the Netherlands.

Sample material

The samples will consist of lyophilized human plasma or serum with different volume (0,5 to 1 ml).

Per analyte or set of analytes you will get one or two sample(s).

Please note our deadline for the order and please use for the applications the special application form! We can not accept cancellations during the annual programme.

The result submission is only possible via internet.

The registration form for this survey you will find on page 59/60.

Conditions of participation

(as of January 1. 2018)

1. **Participation:**
Everyone who carries out laboratory tests can participate in surveys for the Reference Institute of Bioanalytics (subsequently referred to as: RfB). The following conditions for participation therefore apply.
(For consumers individual stipulations and legal provisions apply).
2. **Conclusion of the contractual relationship:**
The contractual relationship between the participant and the RfB is concluded by application and only under these participation conditions.
3. **Application**
Application must be made in writing or online (for registered users) and must be received in good time before the start of the survey. Confirmations of application will only be issued upon request.
4. **Content of the contractual relationship (yearly order, subscription):**

The participant may choose to apply for participation in individual surveys in one calendar year (Contract Type B), or in one or more surveys to be repeated each calendar year over an unspecified period (Contract Type A, subscription).

When application is for participation in surveys to be repeated each calendar year (Contract Type A), a contract for an unspecified period will be concluded by the application. Termination of this contract requires written notice.
5. **Timetable:**
The participant will receive a timetable before the start of each calendar year from the RfB. This timetable contains periods and dates which are binding for the participant in relation to the surveys.
6. **Withdrawal and cancellation**
The participant is free to withdraw from his/her participation in a survey until the respective application deadline given in the timetable. If the participant has applied to participate in several surveys, s/he may only withdraw from his/her participation in individual surveys. If there is a subscription to surveys (Contract Type A), the participant may cancel this completely or for individual surveys.
7. **Non-performance of announced surveys:**
The RfB retains the right not to carry out announced surveys, or to postpone them until a later date. The participants concerned will be informed of this with an appropriate period of notice. The RfB will only refrain from the announced performance for practical reasons, in particular, in the instance of new surveys when the number of registered participants is too low.
8. **Evaluation:**
The RfB evaluates the study results obtained by the participant in the context of a survey, provided that these are transmitted to the RfB within the period specified in the timetable. The participant bears the risk of loss or delay for the dispatch of the data. The participant has no entitlement to the evaluation of measurement values received late by the RfB.

Certificates will be issued for measurements assessed by us. The period of validity of the certificates is regulated by the guidelines of the German Medical Board, respectively corresponds to these guidelines and is valid from the date of issue.
9. **Guarantee**
 - 9.1 The participant undertakes to test the samples after receiving them for any obvious defects, and to inform the RfB immediately if any defects are determined.
The RfB is entitled to elect its own supplementary performance, which may be by repair or by subsequent delivery.

These conditions apply both to the dispatch of samples and to the evaluation of the study results.
 - 9.2 The RfB assumes no responsibility for injuries of any kind – in the existence of other conditions of entitlement – except in the event of intended and/or gross negligence. Furthermore, liability for compensation is excluded for injuries of any kind, no matter upon what basis a claim may be made, including liability for default on conclusion of the contract.

Impairments, which in individual cases result from postal dispatch, in particular the loss of sample shipments, will be remedied by the RfB to the best of its abilities, without the acknowledgement of any claims, by the dispatch of replacement samples. However, the contract is considered fulfilled with the initial dispatch mailing date.
10. **Fees:**
By concluding the contractual relationship with the RfB, the participant undertakes to pay the participation fees listed respectively by the RfB in the publication of its annual timetable.
11. **Confidentiality:**
Individual survey data will be handled confidentially. The provisions for data protection will be observed.
12. **Place of performance and court of jurisdiction:**
Place of performance and court of jurisdiction is Bonn.

➤ Contract type

➤ Contract type A - subscription

You will receive all surveys which you marked on the order sheet.

If you choose contract type A, then your individual order will automatically be renewed annually as long as you do not cancel subscription.

➤ Contract type B - yearly order

You will receive all surveys which you marked on the order sheet.

If you choose contract type B you will get the ordered surveys and nothing else.

To receive further surveys for the following year: a new order will be necessary.

➤ Information for application

It is possible to choose either contract type A (permanent subscription) or contract type B (yearly order).

The application sheets are attached in this brochure. Please mark the survey desired in the appropriate spaces and submit promptly.

Participants from Europe with the exception of Germany are requested to specify their VAT (value added tax) number.

➤ Changes of orders

For both types of contracts, any changes of orders are possible up to the application deadline of the corresponding survey.

Together with this time table for the next year you will receive an overview of the surveys you already have ordered. This overview should also be used for an order confirmation or changes in your orders.

➤ Fees and invoice

Net prices plus VAT. Costs for shipment with normal letter post are included. If the shipping conditions of the Deutsche Post should change for letters, a corresponding price adjustment is possible.

The fees for each survey are given on the following pages.

Please fill out the application forms and send them to the preprinted address.

Invoicing takes place after the interlaboratory tests have been carried out. Payments may only be made by bank transfer or direct debit.

➤ Notes:

Some parts of the survey (packing / data transfer) can from time to time be subcontracted. When subcontracting occurs, it is placed with a competent subcontractor and the proficiency testing provider is responsible for this work.

Parts of survey evaluations may be used for publications making note of the origin.
