## New Surveys! SARS-CoV-2 diagnostics

Dear Sir or Madam,

New virus variants of SARS-CoV-2 and antigen testing accompany our everyday lives. To ensure quality, RfB is offering two new surveys around SARS-CoV-2 and completes the SARS-CoV-2 EQA scheme to the existing survey SARS-CoV-2 immunology.

Two new surveys include direct detection of SARS-CoV-2 virus by using PCR with an optional determination of variants (CoVpcr) as well as antigen testing (CoVag).

All dates and prices can be found in the table below. The first surveys will take place in the second quarter of 2021, please note, the **application deadline is 26.05.2021**.

You can conveniently order the new surveys on our website [www.rfb.bio](http://www.rfb.bio). If you do not have an account yet, you can simply create one using the following form:

[www.rfb.bio/cgi/DisplayAccountForm](http://www.rfb.bio/cgi/DisplayAccountForm)

You will receive your access data by email within one day.

With best regards  
on behalf of RfB Team
